Federal Acquisition Regulation

6.205 Set-asides for HUBZone small business concerns.

- (a) To fulfill the statutory requirements relating to the HUBZone Act of 1997 (15 U.S.C. 631 note), contracting officers in participating agencies (see 19.1302) may set aside solicitations to allow only qualified HUBZone small business concerns to compete (see 19.1305).
- (b) No separate justification or determination and findings is required under this part to set aside a contract action for qualified HUBZone small business concerns.

[63 FR 70267, Dec. 18, 1998]

6.206 Set-asides for service-disabled veteran-owned small business con-

- (a) To fulfill the statutory requirements relating to the Veterans Benefits Act of 2003 (15 U.S.C. 657f), contracting officers may set-aside solicitations to allow only service-disabled veteran-owned small business concerns to compete (see 19.1405).
- (b) No separate justification or determination and findings are required under this part to set aside a contract action for service-disabled veteranowned small business concerns.

[69 FR 25276, May 5, 2004]

Subpart 6.3—Other Than Full and Open Competition

6.300 Scope of subpart.

This subpart prescribes policies and procedures, and identifies the statutory authorities, for contracting without providing for full and open competition.

6.301 Policy.

(a) 41 U.S.C. 253(c) and 10 U.S.C. 2304(c) each authorize, under certain conditions, contracting without providing for full and open competition. The Department of Defense, Coast Guard, and National Aeronautics and Space Administration are subject to 10 U.S.C. 2304(c). Other executive agencies are subject to 41 U.S.C. 253(c). Contracting without providing for full and open competition or full and open competition after exclusion of sources is a

violation of statute, unless permitted by one of the exceptions in 6.302.

- (b) Each contract awarded without providing for full and open competition shall contain a reference to the specific authority under which it was so awarded. Contracting officers shall use the U.S. Code citation applicable to their agency. (See 6.302.)
- (c) Contracting without providing for full and open competition shall not be justified on the basis of (1) a lack of advance planning by the requiring activity or (2) concerns related to the amount of funds available (e.g., funds will expire) to the agency or activity for the acquisition of supplies or services
- (d) When not providing for full and open competition, the contracting officer shall solicit offers from as many potential sources as is practicable under the circumstances.
- (e) For contracts under this subpart, the contracting officer shall use the contracting procedures prescribed in 6.102 (a) or (b), if appropriate, or any other procedures authorized by this regulation.

6.302 Circumstances permitting other than full and open competition.

The following statutory authorities (including applications and limitations) permit contracting without providing for full and open competition. Requirements for justifications to support the use of these authorities are in 6 303

 $[50 \; \mathrm{FR} \; 52431, \; \mathrm{Dec.} \; 23, \; 1985]$

6.302-1 Only one responsible source and no other supplies or services will satisfy agency requirements.

- (a) *Authority*. (1) Citations: 10 U.S.C. 2304(c)(1) or 41 U.S.C. 253(c)(1).
- (2) When the supplies or services required by the agency are available from only one responsible source, or, for DoD, NASA, and the Coast Guard, from only one or a limited number of responsible sources, and no other type of supplies or services will satisfy agency requirements, full and open competition need not be provided for.
- (i) Supplies or services may be considered to be available from only one source if the source has submitted an unsolicited research proposal that:

6.302 - 1

- (A) Demonstrates a unique and innovative concept (see definition at 2.101), or, demonstrates a unique capability of the source to provide the particular research services proposed:
- (B) Offers a concept or services not otherwise available to the Government; and
- (C) Does not resemble the substance of a pending competitive acquisition. (See 10 U.S.C. 2304(d)(1)(A) and 41 U.S.C. 253(d)(1)(A).)
- (ii) Supplies may be deemed to be available only from the original source in the case of a follow-on contract for the continued development or production of a major system or highly specialized equipment, including major components thereof, when it is likely that award to any other source would result in (A) substantial duplication of cost to the Government that is not expected to be recovered through competition, or (B) unacceptable delays in fulfilling the agency's requirements. (See 10 U.S.C. 2304(d)(1)(B) or 41 U.S.C. 253(d)(1)(B).
- (iii) For DoD, NASA, and the Coast Guard, services may be deemed to be available only from the original source in the case of follow-on contracts for the continued provision of highly specialized services when it is likely that award to any other source would result in (A) substantial duplication of cost to the Government that is not expected to be recovered through competition, or (B) unacceptable delays in fulfilling the agency's requirements. (See 10 U.S.C. 2304(d)(1)(B)).
- (b) Application. This authority shall be used, if appropriate, in preference to the authority in 6.302–7; it shall not be used when any of the other circumstances is applicable. Use of this authority may be appropriate in situations such as the following (these examples are not intended to be all-inclusive and do not consitute authority in and of themselves):
- (1) When there is a reasonable basis to conclude that the agency's minimum needs can only be satisfied by (i) unique supplies or services available from only one source or only one supplier with unique capabilities; or, (ii) for DoD, NASA, and the Coast Guard, unique supplies or services available from only one or a limited number of

- sources or from only one or a limited number of suppliers with unique capabilities.
- (2) The existence of limited rights in data, patent rights, copyrights, or secret processes; the control of basic raw material; or similar circumstances, make the supplies and services available from only one source (however, the mere existence of such rights or circumstances does not in and of itself justify the use of these authorities) (see part 27).
- (3) When acquiring utility services (see 41.101), circumstances may dictate that only one supplier can furnish the service (see 41.202); or when the contemplated contract is for construction of a part of a utility system and the utility company itself is the only source available to work on the system.
- (4) When the agency head has determined in accordance with the agency's standardization program that only specified makes and models of technical equipment and parts will satisfy the agency's needs for additional units or replacement items, and only one source is available.
- (c) Application for brand name descriptions. An acquisition that uses a brand name description or other purchase description to specify a particular brand name, product, or feature of a product, peculiar to one manufacturer does not provide for full and open competition regardless of the number of sources solicited. It shall be justified and approved in accordance with FAR 6.303 and 6.304. The justification should indicate that the use of such descriptions in the acquisition is essential to the Government's requirements, thereby precluding consideration of a product manufactured by another company. (Brand-name or equal descriptions, and other purchase descriptions that permit prospective contractors to offer products other than those specifically referenced by brand name, provide for full and open competition and do not require justifications and approvals to support their use.)
- (d) Limitations. (1) Contracts awarded using this authority shall be supported by the written justifications and approvals described in 6.303 and 6.304.

Federal Acquisition Regulation

(2) For contracts awarded using this authority, the notices required by 5.201 shall have been published and any bids and proposals must have been considered. (See 15.402(g).)

[50 FR 52431, Dec. 23, 1985, as amended at 52 FR 21886, June 9, 1987; 53 FR 27463, July 20, 1988; 56 FR 29127, June 25, 1991; 59 FR 67018, Dec. 28, 1994; 66 FR 2128, Jan. 10, 2001]

6.302-2 Unusual and compelling urgency.

- (a) Authority. (1) Citations: 10 U.S.C. 2304(c)(2) or 41 U.S.C. 253(c)(2).
- (2) When the agency's need for the supplies or services is of such an unusual and compelling urgency that the Government would be seriously injured unless the agency is permitted to limit the number of sources from which it solicits bids or proposals, full and open competition need not be provided for.
- (b) Application. This authority applies in those situations where (1) an unusual and compelling urgency precludes full and open competition, and (2) delay in award of a contract would result in serious injury, financial or other, to the Government.
- (c) Limitations. (1) Contracts awarded using this authority shall be supported by the written justifications and approvals described in 6.303 and 6.304. These justifications may be made and approved after contract award when preparation and approval prior to award would unreasonably delay the acquisition.
- (2) This statutory authority requires that agencies shall request offers from as many potential sources as is practicable under the circumstances.

[50 FR 52431, Dec. 23, 1985]

6.302-3 Industrial mobilization; engineering, developmental, or research capability; or expert services.

- (a) Authority. (1) Citations: 10 U.S.C. 2304(c)(3) or 41 U.S.C. 253(c)(3).
- (2) Full and open competition need not to be provided for when it is necessary to award the contract to a particular source or sources in order—
- (i) To maintain a facility, producer, manufacturer, or other supplier available for furnishing supplies or services in case of a national emergency or to achieve industrial mobilization,

- (ii) To establish or maintain an essential engineering, research, or development capability to be provided by an educational or other nonprofit institution or a federally funded research and development center, or
- (iii) To acquire the services of an expert or neutral person for any current or anticipated litigation or dispute.
- (b) *Application*. (1) Use of the authority in paragraph (a)(2)(i) above may be appropriate when it is necessary to—
- (i) Keep vital facilities or suppliers in business or make them available in the event of a national emergency;
- (ii) Train a selected supplier in the furnishing of critical supplies or services, prevent the loss of a supplier's ability and employees' skills, or maintain active engineering, research, or development work;
- (iii) Maintain properly balanced sources of supply for meeting the requirements of acquisition programs in the interest of industrial mobilization (when the quantity required is substantially larger than the quantity that must be awarded in order to meet the objectives of this authority, that portion not required to meet such objectives will be acquired by providing for full and open competition as appropriate under this part);
- (iv) Limit competition for current acquisition of selected supplies or services approved for production planning under the Department of Defense Industrial Preparedness Program to planned producers with whom industrial preparedness agreements for those items exist, or limit award to offerors who agree to enter into industrial preparedness agreements;
- (v) Create or maintain the required domestic capability for production of critical supplies by limiting competition to items manufactured in—
- (A) The United States or its outlying areas; or
- (B) The United States, its outlying areas, or Canada.
- (vi) Continue in production, contractors that are manufacturing critical items, where there would otherwise be a break in production; or
- (vii) Divide current production requirements among two or more contractors to provide for an adequate industrial mobilization base.
